The Seven Deadly Sins of AI in Medicine

Agreement/Disagreement **per Age**

Sin 7: Self-reference (AI-based) monitoring

AI systems that rely solely on themselves for evaluation, without independent oversight, can lead to a lack of accountability and decreased transparency in decision making.

Age group	>60	40-59	20-39	<20
Fully agree / Partially agree	78.7%	81.2%	70,4%	82.9%
Partially disagree	11.3%	12.1%	17.9%	14.3%
Neutral	7.3%	4.5%	7.5%	2.9%
	2.7%	1.2%	3.4%	0.0%
Fully disagree	0.0%	0.9%	0.8%	0.0%
